

In order to depend your beloved children from bullying

Opinions and advices by learned intellectuals in various fields

PART 2

Please watch carefully children's daily life from the standpoint of "Bullying is crime."

Advice 1⇒Is it possible to look at bullying child from a different point? The bullying child might suffer from something. We need to create an environment that will let him/her not take frustration out to bully but talk what he/she thinks inside mind really to someone.

Advice 2⇒If he/she has such an idea as he/she wants to make parents not worry about bullying, it would not be correct. Let him/her understand his/her parents are very happy if he/she talks to parents when he/she is facing bully seriously.

Advice 3⇒It is not recommendable to solve bully problem by revenge by force and arms. The solution by violence should be denied. A really strong child would never bully others. It is important to have a positive mental attitude and to try to find others' good points.

Advice 4⇒Bullied person wants to keep a good relationship with others and consequently he/she may be too willing to agree with others. How about having a discussion with him/her for independent spirit, such as he/she should live even if he/she becomes alone? There are a number of reports that some of successful individuals in creative fields got through tough/hard situation, struggling with a feeling of loneliness.

Advice 5⇒One of options is not to let him/her go to school when he/she is bullied because education/learning can be done outside of school. It is good way to transmit the reality of bullied situation through Internet. It is necessary to create places and methods for his/her outgoing information on feeling of inability, guilty and loneliness caused by being bullied.

Advice 6⇒Let him/her understand in daily life that father and mother are the best persons who want to protect him/her from bullying. It is important to let him/her find out personal goal and make growth/development without being sensitive to other's evaluation

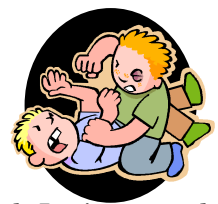

Advice 7⇒It is difficult to speak to bullying or bullied child individually. How about considering involvement of all classmates once bully problem happens? It is one of good ideas to give him/her such some hints for solution of bullying problem.

Advice 8⇒If your children should be seriously bullied at school, you need not to let him/her go to school. Consider how he/she is free to move out from severe situation. Search for the place where he/she can get feeling of relief in his/her life and it is one of parent's duties.

Advice 9⇒Consider what to do as parent when you come to know your child is bullying.

Try to determine the root cause of bullying and to solve it. Let's set up a forum for discussion.

Advice 10⇒School does not exist for the place where bulled children be killed. Let's struggle to survive until graduation of junior high school. One of solutions is to change educational environment. Teach him/her that he/she will have more options after entering into senior high school and he/she can get new enjoyable school life.
